Choice of blue or white

Available Options

More Info

Best value on the market - quality tacky mats

First ever contamination control product containing renewable plant-based materials, providing an environmentally friendly alternative for socially responsible organizations.

The proprietary technology reduces the CO2 emissions during the manufacturing process, reducing carbon footprint providing customers with an effective and earth-friendly solution to contamination control.

Size: 460 x 915mm (18 x 36")

8 mats per case, 30 sheets per mat

To remove footborne and wheelborne contamination

Low profile so no need for any frame

No residue and easy-peel polyethylene sheets

Numbered peel tabs on each sheet

Choice of blue or white

Recommendation Use white mats for cleanrooms, laboratories, etc. as dirt will be more visible on a white surface. Blue mats are best reserved for industrial use where footborne contamination is lighter, e.g. plaster/brickdust.

Brand

Purus

Lead time (if out of stock)

3-4 weeks

Pack Size

30 sheets per mat with 8 mats per case

Materials

Polythene sheets

Size

Small - 460 x 915mm

Applications

Cleanrooms, Labs, Healthcare, Construction, Trade Services, Retail and many more!

Country of origin

China

Technical data

It is recommended that you use white mats where dirt will be more visible on a white surface, in a laboratory for example, and blue mats are used where dirt is lighter, like plaster or brick dust.

Sterility

Non-Sterile

Warning

If you wish to be able to pick the mat up, to clean under it or to move the mat, it is recommended that you use a frame as the bottom of the mat will lose its tackiness if it has been stuck down previously.

Washing

Each layer is disposable, washing not recommended.

Instructions for use

1. Clean and dry the area where the mat is to be placed.
2. Remove protective film from the bottom of the mat.
3. Adhere mat to floor, smoothing out from one corner. With the protective non-adhesive layer still in place, walk on the top to firmly press do
